 @Urooj-Islam-Khan

I am a frontend developer with one year of experience in creating responsive and visually appealing website designs. I also work as a UI/UX designer, focusing on making websites easy to use and engaging. I have strong creative skills and enjoy collaborating with others to deliver high-quality projects. I'm adept at understanding diverse ideas and integrating them into cohesive designs. Additionally, I am currently learning and working on mobile application development to expand my skill set, enabling me to create intuitive and attractive user experiences across both web and mobile platforms.

PERSONAL PROJECTS

1.Ecommerce Website

- Developed a responsive layout
- Implemented dynamic features like shopping cart and product filtering..
- Styled with modern CSS techniques and animations.
- Designed a user-friendly checkout process with form validation.

2.Personal Portfolio Website

uroojportfolio.netlify.app
